

MUSIC AND
THE DRAMA

Under the direction of Sydney Walling, the choir of St. Peter's church last evening, to a large audience, presented Dudley Buck's masterpiece, the Christmas cantata, "The Coming of the King." The large audience thoroughly enjoyed the musical fest was clearly evidenced by the manner in which they received the different choruses and solos. It will be repeated on Sunday evening next in place of the regular service. The cantata included the following numbers: Noel—Prelude for organ. Soprano solo—Prophecy. Mrs. Friel. Jerusalem, Look About Thee Toward the East. Advent—Chorus, "I am Awake, Awake, Put on Thy Strength. Hark! He Shall Feed His Flock." Miss Mabel Miller. Miss Ann. Miss A. Freed. Tenor solo—Hail, Hail, Mr. J. Gierard. Male chorus—Ave Maria—We March in the Cool of the Night. Female chorus—The Plains of Bethlehem. Tenor and Three Women—The Same Country. Tenor solo—Fare Not. R. Bridges. Female chorus—And Suddenly There Was a Noise. Miss Ann. The Fall Chorus—Gloria to God in the Highest. The Highest of the Shepherds. Male chorus—Let Us Now Go Forth Unto Bethlehem. Tenor solo—And They Came With Haste and Joy. A. Barrett. Congregation and Chorus—Christians, Miss Mabel Miller. Miss Ann. Miss A. Freed. Soprano solo—The Adoration. Miss Friel. Bass solo—And Behold We Warned of God. Mr. B. Volck. Adagio—Fidelio—O Come, All Ye Faithful. Tenor—Amen.

ROYAL BAKING POWDER
Adds Healthful Qualities to the Food

Prof. Prescott, of the University of Michigan, explains why Royal Baking Powder adds healthful qualities to the food.

Testifying before the Pure Food Committee of Congress, the Professor stated that fruit acids were excellent articles of food and that of these cream of tartar, the acid of grapes, held rank with the highest both in itself and its effect in the process of leavening and baking. He regarded the results from cream of tartar baking powder as favorable to health. Scientists and hygienists are in accord with this opinion.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar.

Latest and Best Photographs of Miss Gould, Engaged to Wed.

MISS HELEN MILLER GOULD, whose engagement to marry Finley J. Shepard, a St. Louis railroad man, was recently announced by her brother, George J. Gould, has always been a hard problem for the newspaper photographer, and portraits of her are scarce. Above are two poses caught by enterprising camera men. Miss Gould is the eldest daughter of Jay Gould, the past generation's Wall Street wizard. She is 44, one of the world's richest women, and famed because of her broad and sane charitable work.

ARCTIC DANGERS

Northern Gold Seekers Had Thrilling Experience.

(By Times Special Wire.)
Edmonton, Alta., Dec. 27.—Strapped between two solid walls of ice, trapped in the north of the Baffin's Land, while voyaging in the steamer Albatross in search of a place for several seasons of wintering in the Arctic, the crew of the Albatross had a thrilling experience in July last, when with his crew of Canadian men he was compelled to abandon the sinking craft and drift himself 35 miles across the great ice fields to an Esquimaux settlement.

Their limbs numbed by the excessive cold, improperly clad for the rigors of the ice journey in the teeth of a piercing wind, the men of the Albatross fought for hours to reach a place of safety from the north. For days they were the guests of the friendly Esquimaux, living on native fare, until by the merest good luck, they were picked up by the steamer Albatross, which was en route to the north, coming down from the north.

While living with the Esquimaux, Meun found a large store of provisions, which he had been told was there. On his return to Toronto Captain Meun decided to give up his frozen north project, and spend the remainder of the winter in the south.

OPEN TO-MORROW NIGHT
FRIDAY, DECEMBER 27th, 1912
OPEN TO-MORROW NIGHT

Li yesterday were busy engaged in "picking up the loose ends of things" so to speak, after the greatest Christmas business the establishment has ever been favored with. Here and there throughout the store we found remnant lots of goods—a few dozen boxes of waists, some fancy toilet sets, handkerchiefs, jewelry, men's furnishings sets, slippers, etc. WE ARE VERY ANXIOUS TO SELL THESE LINES TO-MORROW—and in order to do so, we have dropped the prices to the lowest possible rate at once. Therefore—

To-morrow's the Day to Buy Your "Return Gifts" For New Year's

Look over the following list of reduced lines—nothing the matter with any of the merchandise at all except that it is all of the special gift kind—and Christmas is past and gone. Plenty of suggestions here for New Year's and Return Gifts.

Silk Scarfs, 59c
Dainty lace patterns, suitable for evening wear; choice of white, white and sky, white and pink, white. Regularly 75c each. To-morrow 59c each.

Veilings, 23c yard
A lot, consisting of several hundred yards of silk chiffon, with and without stripes border, cutting and storm veil. Choice of white, grey, navy, tan, white and black. Regularly 35c to 50c a yard.

35c Gloves for 25c
Plenty wool, with deep cuffs. In grey, white and cardinal.

Fancy Boxes at 49c
22 only, for collars, cuffs, handkerchiefs and gloves. On sale to-morrow at 49c each.

Toilet Goods Gifts
A limited number of our 75c and \$1.00 Hair Brushes, with solid ebony backs and gold handles. Regularly \$1.00 to \$2.00 a set. On sale to-morrow at 49c each.

600 Handkerchiefs
15c and 20c each. At 9c each.

Warm House Slippers
Women's "Juliet" in red or black, fur trimmed, leather soles and heels. Sizes 3 to 7 in. \$1.19

25c Crepe Paper, 13c
Several good holiday designs to choose from, 10 feet long, 30 inches wide.

600 Handkerchiefs
15c and 20c each. At 9c each.

Warm House Slippers
Women's "Juliet" in red or black, fur trimmed, leather soles and heels. Sizes 3 to 7 in. \$1.19

25c Crepe Paper, 13c
Several good holiday designs to choose from, 10 feet long, 30 inches wide.

600 Handkerchiefs
15c and 20c each. At 9c each.

Warm House Slippers
Women's "Juliet" in red or black, fur trimmed, leather soles and heels. Sizes 3 to 7 in. \$1.19

25c Crepe Paper, 13c
Several good holiday designs to choose from, 10 feet long, 30 inches wide.

600 Handkerchiefs
15c and 20c each. At 9c each.

Warm House Slippers
Women's "Juliet" in red or black, fur trimmed, leather soles and heels. Sizes 3 to 7 in. \$1.19

25c Crepe Paper, 13c
Several good holiday designs to choose from, 10 feet long, 30 inches wide.

IN GRIP OF STORM

British Channel-Gale Damages French Coast.

(By Times Special Cable.)
Havre, France, Dec. 27.—The storm which has ravaged the English channel for the past few days has caused considerable damage on the French coast. The new harbor works of this port have suffered considerable damage.

Despatches from Cherbourg state that many houses and sailing vessels have been wrecked there from the gale. Telegrams from Cherbourg state that the harbor is crowded. Last night the Wireless telegraph station at Cherbourg was damaged. The station is a fine building, and the damage is considerable.

A sailing vessel was blown ashore to the latter by its partner, C. A. Blackstock, of Toronto.

summer and the autumn in the Peace River district. The storm which has ravaged the English channel for the past few days has caused considerable damage on the French coast.

Paris, Dec. 27.—The great storm which has prevailed throughout France yesterday and today has caused considerable damage on the French coast. The new harbor works of this port have suffered considerable damage.

CHATTS WITH THE DOCTOR

(By a Physician)
MASSAGE.

Though a very thorough training is necessary before anyone can become a skilled masseur, it is quite possible with a little practice to learn how to perform the various movements necessary to give relief in minor ailments. Massage is made up of manipulations which are of three kinds: effleurage, pétrissage, friction and tapotement. These may be briefly described as follows.

Effleurage is the lightest of the three, and is used for the purpose of relaxing the muscles and preparing the body for the more vigorous movements. It is performed with the fingers and palms of the hands, and is usually done in a circular or longitudinal motion.

Pétrissage is the kneading movement, and is used for the purpose of breaking up the muscles and promoting the circulation of the blood. It is performed with the fingers and palms of the hands, and is usually done in a circular or longitudinal motion.

Friction is the rubbing movement, and is used for the purpose of stimulating the muscles and promoting the circulation of the blood. It is performed with the fingers and palms of the hands, and is usually done in a circular or longitudinal motion.

Tapotement is the tapping movement, and is used for the purpose of stimulating the muscles and promoting the circulation of the blood. It is performed with the fingers and palms of the hands, and is usually done in a circular or longitudinal motion.

The GARDEN SANATORIUM
Just now we are hearing a great deal about the Garden Sanatorium, and for the most part, it is a very good thing. The sanatorium is a very good thing, and it is a very good thing to have a sanatorium.

DIED IN FLAMES

Three Children Perish In Burning Home.

Sad Christmas of Family Near Ottawa.

Ottawa, Dec. 26.—While Mr. and Mrs. Andrew Curran of Edwards Station, Carleton county, were in the stable getting ready to come to the home for Christmas dinner yesterday morning their house caught fire and their three children, who were in bed, were unable to save them. The fire started at ten minutes after five, and the house and contents were destroyed very quickly. Although Mr. and Mrs. Curran and their neighbors made repeated attempts to break through the flames and carry the children to safety, they could not do so without losing their own lives.

Mr. and Mrs. Curran got up early because they were to drive into Ottawa to take Christmas dinner with Mrs. Curran's parents, Mr. and Mrs. J. H. Johnson. They started a fire in the kitchen stove and then went to the barn to get their horses and get the horses ready for the drive to the Johnsons.

The children were left alone in their bed. They had been in the stable about fifteen minutes when Mrs. Curran came out and saw the house in flames. Without waiting to call her husband she ran to the door and tried to get in, but although the fire had not got so far that she could not pass the flames at the door.

Mrs. Curran then ran back to call her husband, and after getting a ladder to get into an upper window they both tried to get into the children's room, but again the flames drove them back. At this time neighbors had arrived, and they made attempts to break through the house, without success. In her first effort to enter the door of the house Mrs. Curran was killed. The bodies of the children, Albert, Andrew, Annie Martha, and Eva Jane, the baby only two years old, were recovered later.

AGAINST THE BAR

Leader Rowell Takes Platform at Ay.

Ayr, Dec. 26.—"Some may believe in the abolition of the bar by means of local option who do not believe in a Province-wide measure. Others may believe in the latter and not in the former. I respect the opinions of both and I am not personally in favor of either. But I believe in curtailing the evils of the liquor traffic both by a Province-wide measure and by local option, and, therefore, I am glad to assist in promoting the passage of either option bill."

This was one of the statements made here tonight by Mr. J. H. Rowell, K. C., M.P.P., during the course of a speech delivered at the Christmas banquet of the Ayr Division of the Ontario Temperance Union. The time has come, continued Mr. Rowell, "when the people of the Province with intelligent conviction and heart-felt enthusiasm should take themselves to the work of social reform and towards improving the social and industrial conditions which the mass of men live and labor. By almost unanimous consent the license is one of the greatest evils in the way of genuine social reform. It is a social and economic waste. It impairs the industrial efficiency of the community. It increases the cost of production to the manufacturer, owing to the loss of the legitimate market. It is one of the sources of crime and of the one of the most prolific causes of social degeneration. It is the enemy of the home, the wife and family, and the handicap to thousands of young men just starting in life; to many it is their utter undoing."

The hall was crowded to overflowing and Mr. Rowell's speech was met with keenest interest. Following the local option policy, the Liberals of Ayr followed Mr. Rowell in support of which the policy of abolition there was enthusiastically supported.

TRIED TO SUICIDE

Tillsonburg Youth's Love Affairs Went Wrong.

St. Thomas, Dec. 26.—Frank Fardella, a young man of Tillsonburg, who attempted suicide on Christmas Day by shooting himself in the chest with a revolver, was discharged from the hospital yesterday. Fardella was suffering from a wound in the chest and returning home, was upstairs in bed, and his mother, who was the girl under his care, pulled the trigger of the first firing and he was killed. Fardella was a very serious case, and his mother was very much distressed. Fardella was a very serious case, and his mother was very much distressed.

ILL-USED MINERS

Serious Charge Against the South Porcupine Officials.

Toronto, Dec. 27.—Alleging that eight striking miners confined in the South Porcupine jail are not allowed to communicate with their friends, and that they were given nothing to eat from 7.30 a.m. Tuesday of this week until 1.30 p.m. the following day (Christmas), the Secretary of the Western Federation of Miners, W. C. Thompson, who is in the Porcupine district, sent a telegram yesterday to the Attorney-General here, demanding that immediate steps be taken to redress the miners' grievances.

Mr. Leonard Round, local representative of the Western Federation of Miners, said last night that the Provincial police were treating the striking miners worse than did the local constabulary. He said that about one thousand miners were on strike, and that they were determined to win their fight against the mine owners. The latter, he said, had secured eastern Canada for strike-breakers, but had not been very successful.

GRAFT IN GUELPH?

Petition Demands a Provincial Investigation.

Guelph, Dec. 26.—A special meeting of the City Council held tonight sensational charges were made by a number of citizens against the chief of police, the medical officer of health and the city engineer. Scenes From the Life of Christ

ON THE WAY TO CALVARY

Reverently portrayed on the exact spot where it took place ninety on hundred years ago.

And they took Jesus, and led him away. And he, bearing his cross, went forth into a place called the Place of a Skull, which is called in the Hebrew, Golgotha—John 19:17.

POINCARÉ WILL RUN

French Premier Is After the Presidency.

Paris, Dec. 26.—Premier Raymond Poincaré, yielding to the insistence of friends in the Senate and Chamber, has consented to be a candidate for the Presidency of the Republic.

The members of the Senate and of the Chamber of Deputies, meeting at the national assembly at Versailles, on Jan. 17, will choose a successor to President Fallières. The Republicans have recently been bringing pressure to bear on Leon Bourgeois, the former Premier, to stand as a candidate, and while Mr. Poincaré is not a member of the Chamber, he is a member of the Senate.

Mr. Poincaré himself has several times refused to accept the candidacy. He is not the man or woman who has heart is full of love, happy?

And by this is meant sentimental love. This is the very thing most sought for in this world—We are all questing for it, most of us by different roads. Some seek for it in money. Others in fame. Others in the love of the great. Others in the love of the great. Others in the love of the great.

Others in the love of the great. Others in the love of the great. Others in the love of the great. Others in the love of the great. Others in the love of the great. Others in the love of the great.

STORM IN BRITAIN

Boats are Ashore and Wires are Down.

Plymouth, Dec. 26.—A terrific gale is prevailing, and many vessels are in trouble. The Brazilian steamer Goya is ashore in Bitter Bay.

Queensland, Dec. 26.—A large number of small craft were swamped by the heavy seas caused by the storm today. Mountains of waves are pouring over the gulls and wharves.

London, Dec. 26.—A heavy gale swept over England today. Considerable damage is reported and telegraph wires were downed in many places.

LAUDER TO RETIRE

Scottish Entertainers Christmas Gift to Wife.

New York, Dec. 26.—Harry Lauder's Christmas present to Mrs. Lauder, given at a dinner in the home of William Morris yesterday, was the absolute promise to retire from the stage to private life on Christmas Day, 1914, after a farewell tour of the United States.

The actor declared that by that time his earnings will have netted him \$600,000. A portion of this will be devoted to the purchase of a Highland estate adjoining his present home at Dunoon, Scotland, and the remainder, safely invested, will supply him with the luxuries of life.

Lauder's tour of the world will be his New Year's New Year's Day, 1914.

Montreal, Dec. 26.—"Is an Angora cat worth \$25.99?" is a question which has been asked in the streets of Montreal since the arrival of the Angora cat from the East.

The cat, which is a very fine specimen of the breed, was brought to Montreal by a man who has been in the business of importing cats for many years.

The cat is a very fine specimen of the breed, and is worth the price which has been asked for it.

Berlin Club Is Sold to Local Syndicate

Twin City Sportsmen Pay \$2,000
for Franchise.

Berlin, Dec. 27.—After January 1, 1914, the Canadian League franchise in Berlin will become the property of the Twin City Athletic Association of this city, the organization of which was completed yesterday afternoon at a well-attended meeting of shareholders. The new company is capitalized at \$40,000, with shares of \$20 each and the sum of \$2,000 has already been subscribed. The usual by-law designating the powers of the directors were passed and the following were elected as directors: Messrs. Dr. F. H. Kuehnel, H. A. Hagen, C. N. Heather, W. Witt and J. J. MacMillan. The officers will be elected at a meeting to be held Sunday.

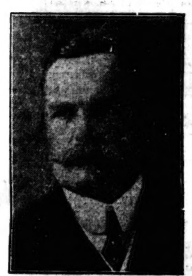

The proposition of W. J. Williams, owner of the Berlin club, offering the franchise, including the players on the service list, equipment, etc., for \$2,000 was accepted. The original price named for the franchise was \$3,000, which was considered too high, and in order to keep the franchise in Berlin Owner Williams made the reduction in his price. The transfer of the franchise will take place next month. In the meantime no time will be lost in securing a capable manager. Quite a number of applications have been received and will be considered. The shareholders of the company are sanguine that the Canadian League baseball can be made a financial success in Berlin and every effort will be made to provide the enthusiastic with a first division team.

J. HOWARD CROOKER,
Formerly instructor at the Central
V. M. C. A., Toronto, who is now
Secretary of the Oriental Olympic
Committee at Shanghai, China.

Bowling

The past week was a busy week at the Brunswick alleys, owing to the large amount of turkey that were hung up for prizes. The first one to pull down a turkey was William Irwin, in the Big Four League, with the good score of 211. In line was R. Laidman, in the men's league, with 216. In the high school league, took his with 377. In the open league, McFadden was good, taking a bird with 626. In the high school league, Powell was the lucky boy, with 426. In the duck pins G. Bentley put the good score of 337, and carried off great big bird. Art Cocking was a winner in the five pins with 548. Christmas day G. Bentley and Art Cocking took down the two boxes of ducks for high scores, 408 for Cocking in five pins, 482 for Bentley in five pins. This week there is a fine big goose on up for the high three games.

B. HAL BROWN,
Formerly Vice-President and General
Manager of the Prudential Trust
Co., Montreal, who has been made
President and General Manager.

Made a Difference.
It was kit inspection and the different companies of the battalion were ending with their kits on the ground front of them. The sergeant major was making the examination, when eagle eyes detected the absence of soap in the kit of Private Finn, and demanded what excuse the man could give.
"Place, sir, it's all used," said Finn. "I used it up," shouted the sergeant major. "Why, the first cake of soap I had used for me for my kit last week three days, while you are not a year in the army yet. How do you account for that?"
Finn's eye had the faintest suspicion of a twinkle as he replied: "Place, sir, I wash every day." And the sergeant major walked on, while the whole company grinned.
—T. Ditt.

Makes Magnesia Floors.
They are making the floors of his office buildings in Germany of a mixture of magnesia chloride, pulverized magnesite and sawdust, laid from two to four inches thick. Consequently, Robert P. Skinner reports from Hamburg that such floors are waterproof, almost fireproof, crack-free, warm under foot, elastic, soundproof, and cheaper than pine flooring, tiles or stone.

The difference between a politician and a statesman is that a statesman is sometimes out of a job.

A PEACH OF A SALE

Different Fruits
That We Eat

THE TURNIP. A biennial plant with lyrate hypsid leaves. The upper part of the root especially in cultivation, swollen and fleshy. It is a native of Europe, but was cultivated in India long before it could have been introduced by Europeans. It will be found in almost every garden in temperate and cold parts of the world. Though the turnip is of great value for feeding stock, it is not very nutritious, no less than 90 to 96 parts of its weight actually consisting of water.

We are very glad to tell you that this is no turnip sale, where 90 per cent. is water. No water in this Peach of a Sale. Just the solid Peach.

THE MELON. The melon is a fruit we all know, and many a man in attending sales has been handed a melon. But there will be no melons handed you in our Peach of a Sale.

The Melon, in botany, Cucumis melo. Linnaeus, who discriminated it from others of the genus by the angular points of the leaves being rounded off and its torulose, i.e., knotted fruit, says that it is a native of the Euxine country (in Tartary). De Candolle considered it to come from the Valley of the Caspian Sea, and from those of Mount Caucasus.

THE GRAPE. The fruit of Vitis vinifera or the plant itself. The native country of the vine is the region around the Caspian Sea. It has been cultivated from the remotest antiquity. Genesis 9th chap., 20th verse. "Some men very sour grapes," when I have my annual sale. I suppose it hurts regular business and regular profits. There are some beautiful ripe grapes in the way of bargains that just have to be seen to be appreciated. Just reach for some of these grapes during this sale.

Clothing, Hats and Furnishings, Commences 8 a. m. Saturday, and Will End on January 28th, 1913

A PEACH OF A SALE

THE PEACH, the delicious fruit of Amygdalus Persica, the peach tree, genus Amygdalus. It is distinguished by oblong lanceolate crenulate leaves; solitary flowers of a delicate pink color, appearing before the leaves; and the sarcocarp of the drupe succulent and tender, not fibrous as in the almond. Many varieties are cultivated in the United States and Canada, and form an important branch of commerce. Much of the fruit is used for making a spirituous liquor called peach brandy; much of it is dried in ovens, or in drying houses furnished with stoves, or in the more Southern States, in the sun. The peach is a pleasant and refreshing fruit. The leaves when fresh have the smell and taste of bitter almonds; and by bruising them and mixing the pulp with water and distilling, the peach water is obtained, which is so much esteemed by many for flavoring articles of cookery.

This is the first Peach of a Sale ever held in Hamilton as far as we know, and it is to be a regular Grimby Peach of a Sale, as we do not want to disgrace the reputation of the fruit.

A Gold Filled Watch Offered as a Prize

For the best story of a peach, not more than three hundred words, Composition and writing all enter in the awarding of this prize. Date your composition. The competition is open to any Public, Separate or Junior High School pupil in Hamilton or within a radius of fifty miles: James R. Allan, of the Hamilton Spectator, will be the judge. Our store is on James street north, about fifty yards from the City Hall, opposite the Arcade Departmental Store, and the sign of a Peach of a Sale will be over the windows and over the door. Every garment pressed and altered during this sale.

FURNISHING SPECIALS

25c Roller Braces for 15c pair; 50c President Suspenders, 50c a pair, one pair to a customer; a table of \$2.50, \$3.00 and \$3.50 fine Undershirts and Drawers for \$1.75; 1,000 only 50c and 75c Neckties for 30c each, or 3 for \$1. We haven't the room to mention the hundreds of other lines that will be on sale during this Peach of a Sale, but if you will just watch the papers and watch our windows there will be something of interest from start to finish, as our Mr. Tobey is looking forward to 1915, the majority share and a quarter of a million dollar business.

Table No. 1 at 50c. On this table will be Men's \$1 and \$1.50 Vests; Men's 75c, \$1 and \$1.25 Undershirts; Men's \$1.25 and \$1.50 Colored Shirts; Men's Gloves, slightly soiled from Christmas rush; \$1 and \$1.25 Kid Gloves, and many other lines that will be added before the opening day at about half their value.

Table No. 2 at 90c. Choice of about 500 W. G. & R. Tooke Bros. and other Canadian and American made \$1.25 to \$2.00 shirts.

Extra Special

Four only men's \$10.00 Suits on sale at three o'clock sharp for \$1.25 each. The suits must be worn out of the store.

Different Fruits
That We Eat

THE CABBAGE. A plant in general cultivation for culinary in this sale will be a little. The common cabbage is said to have been introduced into England by the Romans, but to have been little known in Scotland until brought by the Cromwell soldiers, and was introduced into Canada about a hundred years ago. Many men who miss this sale will feel that they have a head like a cabbage, after it is over. Many men attend it will think our Mr. Tobey has a head like a cabbage for selling goods so cheap.

We take stock on the first day of February, and our stock is unusually heavy on account of the effort Mr. Tobey makes to build the business up to a quarter of a million. I have had a Whale of a Sale, a Bird of a Sale, and I want to crown all efforts by this "Peach of a Sale." Every article in this sale will be a little better than what we have advertised. Making money is farthest from my thoughts during this month. I just want to meet new people, old customers and reduce my stock about \$20,000, and help build my business up to a quarter of a million by 1915, and then I am going to try and be Mayor of Hamilton.

THE BEET. The English name of the Beet, a genus of plants belonging to the order Chenopodiales (chenopods). Beta Vulgaris, or common beet, is cultivated to be used in the manufacture of sugar; the green topped variety being preferred for the purpose. The beet is also used for pickling. Many a man who has attended ready-made clothing sales in the past found out that he was (beet) when he got home, and in many cases his wife thought he was "pickled," or he wouldn't have been so much in his judgment. We promise no one will be beat in this sale, only ourselves.

THE LEMON. The fruit of a small tree (Citrus Limonium), belonging to the same natural order as the orange. There are many varieties of the lemon, but they may be all included under the four following distinct types: The Common, or Genoa Lemon, the Thin Skinned Lemon, the Sweet Lemon, and the Citron Lemon.

Then there is a new kind. That is the lemon you get hand you when you pay too much for an article in the regular way, and especially when you have been handed a lemon in an advertised reduction sale. The lemon element will be completely obliterated in this Peach of a Sale. There will be no lemons in anything that we advertise.

TOBEY, The 2nd's

Successor to Trudell & Tobey

50 and 52 James Street North

PROGRESSIVES WELLED

Do Not Approve of Merigold's Course.

MR. BRYERS SPOKE
Also Ex Mayor McLane
and Several Others.

The second meeting of the East Hamilton Progressive Society was held in Phoenix Hall last evening, with many of the would-be members of the society of 1913 present. The minutes of the last meeting were read and passed. Mr. Kinch, the president, occupied the chair, and stated that he wanted it strictly understood that the members of the society were non-political.

Ald. Merigold was called upon to give an address. He said that he regretted for having last evening was to vindicate himself. He had read in the papers that at the last meeting of the members of the society stated that he had known Mr. Merigold for some time, but he was through with him, and Mr. Merigold denied the statement, and asked for the man who made that statement to come to him and explain himself.

The man referred to, G. I. Givens, stood up and told of the time he had made the statement at the Givens Hotel at a citizens' campaign meeting. Mr. Merigold tried to make himself right, but at last went badly, so the members all seemed to agree that he was in his state. The latter member said that any man who was not willing to support the east ward, was not a fit man to be supported by the society.

Mr. Bryers, the other man who is running on the temperance ticket for Ward 8, was then called upon. He told of the bad roads in Ward 8, and of the fact that the city had been lately taken in the population would be 30,000. Mr. Bryers said that he thought the city had been lately taken in the population would be 30,000. Mr. Bryers said that he thought the city had been lately taken in the population would be 30,000.

HOME OF TIBERIVS Palestine Excavations Unearth Caesar's House.

Rome, Dec. 26.—Another of Professor Boni's discoveries in his excavations at Palestine is reported. He has reopened a house of the early Imperial period, which was partly uncovered in 1910, and subsequently reported. Professor Boni is convinced that the excavations and other evidence that it was the residence of Tiberius Caesar and Julia, the daughter of Augustus. Among the minor evidences of the excavations are the remains of a large hall, which corresponds to the description of the house of Tiberius Caesar and Julia, the daughter of Augustus. A large bath and hot and cold water supply are among the findings. It is an underground cell beneath the house, which Professor Boni tentatively identifies as the prison where Drusus starved to death as narrated by Tacitus.

17-STOREY HOTEL Toronto Will Have New Skyscraper Soon.

Toronto, Dec. 27.—Tentative plans of the proposed new 17-storey hotel of King and Bay streets, adjoining the Bank of Toronto premises, were formally approved by the Board of Control yesterday. Mr. McKinstry desires to build a 17-storey structure to provide accommodation for about 800 guests. Under the city by-law, the structure of the hotel must be higher than the adjacent city buildings.

The board were of the opinion that another large hotel was needed in the city, and sent on a recommendation to Council to give the necessary consent. The matter will probably be dealt with at the valditory meeting of this year's Council on Monday, Jan. 6.

SUIT FOLLOWS AIR TRAGEDY.

New York, Dec. 26.—The first suit ever brought here to recover damages for the death of a passenger in an airplane was filed today in the supreme court by the widow of Victor L. Mason, who was killed in London, Eng., on May 13. Mrs. Mason sues the Ocean Accident & Guarantee Corporation, Limited, of London, for \$10,000 on a policy bearing her husband against death by violent means.

BISHOP FALLON SUFFERS HALL.

London, Ont., Dec. 26.—Bishop Fallon, who has been in the city for some time, is suffering from a severe attack of influenza. He is being treated in a private hospital. The bishop is expected to recover, but his recovery will be a long one.

Children Cry FOR FLETCHER'S CASTORIA

"What did you say at the literary club last night?" "Shakespeare and the difficulty of keeping servants. However, and the difficulty of finding a good dressmaker, and Emerson and the difficulty of getting fresh eggs."—Louisville Courier-Journal.

THE FARMERS BANK Commons Members Request Relief for Victims.

Toronto, Dec. 27.—At a special session of the Farmers Bank Commission yesterday Mr. William Meredith was approached by a number of members of the House of Commons, who, through their spokesman, Sam Sharpe, M.P., requested specific findings from the commission, and submitted a set of questions to which they desired answers. Major Sharpe stated that he and a number of his colleagues at Ottawa had met to discuss the circumstances surrounding the failure of the Farmers Bank. He stated that the bank had been established in 1908, and that it had been operating for some time. He stated that the bank had been operating for some time, and that it had been operating for some time.

SNATCHED MONEY N.Y. Woman Grabbed Church Offertory.

New York, Dec. 26.—An Rev. Father Joseph McGowan was walking up an aisle toward the pulpit in the Church of the Ascension, in West One Hundred and Seventh street, with a well-filled offering plate in his right hand, during early mass yesterday afternoon, when a woman stepped from her pew and snatched four envelopes from the plate. The priest, who was startled, but did not follow her, and she disappeared into the crowd. The envelopes contained a total of \$10.00.

POWERLESS TO AID Crowd Watch Steamship Run on British Shore.

Penzance, England, Jan. 24.—The Italian steamer Tripolitania, from Genoa for Barry, Wales, was wrecked in the Seven's Bay, in the extreme southwest of England, the afternoon of Tuesday, December 24. The ship was carrying a crew of 28 men and had a thrilling escape; the other was drowned. The vessel was loaded with goods, and the crew was unable to save the ship.

THE POULTRY WORLD

POPULATING CONTIGUOUS LESSONS.
The first Missouri national egg-laying contest, which was held at the Agricultural College, Marion, Mo., last week, was a great success. The contest was held for the purpose of promoting the production of eggs, and the results were very satisfactory. The contest was held for the purpose of promoting the production of eggs, and the results were very satisfactory.

CHILD SCALDED BY TEA.

London, Ont., Dec. 26.—Elaine Bowen, a 13-year-old girl, who lives with her parents at 23 Adelaide street, in Chelmsford, a suburb of London, was scalded at her home last evening, when she was carrying a teapot when a sudden spout of water from a faucet struck her on the head. The girl was taken to a hospital, and is expected to recover.

IN THE JURY'S HANDS Dynamite Conspiracy Case May End To-day.

Indinapolis, Dec. 26.—Whatever it is to be the outcome of the three months' "dynamite" trial in which forty-four union officials are accused of conspiracy in the case of the destruction of the Los Angeles Times building, the jury is expected to reach a verdict today. The case has been a long and complicated one, and the jury has been deliberating for some time.

NEW PUBLICATIONS.

Poliomyelitis has been endemic in Northern Europe for some time, but it is only five years since it started on that unique, and as yet unexplained, movement that was carried to around the globe. In America there is no previous history of a general prevalence of epidemic, although local outbreaks of infantile paralysis have from time to time arisen. Some significance attaches to the fact that the first two foci of the present epidemic in America were in the United States and Canada—arose in the Atlantic coast cities and in the State of Minnesota in the middle west. The former received the mass of emigrant population from Europe, and the latter, secondarily, the largest contingent of Scandinavian emigrants. The importation of the infection upon America can thus be accounted for; but no explanation is afforded of the many years of immunity while European countries and to far distant parts of the world. However, within the pandemic period the disease was prevalent in Norway, Sweden, and as recently as 1911 the latter country has suffered a severe epidemic.—Dr. Simonsen, The Lancet, Science.

NEW YEAR'S HONORS.

Ottawa, Dec. 26.—It is expected in some quarters that a number of prominent Canadians will figure in the New Year's honors, including Premier Borden and Hon. J. D. Hazen. It is held that the British Council to recognize the Canadian Government's navy bill. Hon. George F. Foster stands a good chance of being knighted for successfully arranging the West Indian trade agreement. Other Canadians will doubtless be recognized in the distribution of honors.

BURLESQUERS ARRESTED.

Montreal, Dec. 26.—Invading the Theatre Royal, High Constable St. Mars and two assistants this afternoon formally played the manager and the entire troupe of burlesque comedians, who were playing at the theatre, under arrest. The high constable handed Manager McElroy a warrant made out by J. Roberts, of the Dominion Alliance, alleging that an immoral performance is being given in the theatre.

WINTER EGGS PRODUCTION.

With the extreme cold weather almost here and fresh eggs approaching the dearth mark in the large cities, the question of winter egg production is one which is important to all successful poultry raisers. This is the time of the year when a few precautions and a little advice and management may add many dollars to the pocket book of the poultry raiser. The poultry raiser should be aware of the fact that the winter is the best time to produce eggs, and that the winter is the best time to produce eggs.
